

# COVID-19 Digital Learning Instructional Plan

Coach Gambrell

AP & Honors Chemistry

## Instructional Plan

During this time, I will be using my personal website ([www.gambrellchemistry.com](http://www.gambrellchemistry.com)) to disseminate information and assignments. On my website, there are 2 main types of pages that are important:

1. Unit Pages – these pages will contain videos from YouTube and potentially videos of myself teaching that we will use during this time in order to teach as much material as possible.
2. Blog Page – on the blog page, I will be posting the content topics we will cover each day, along with any assignments that are due. The plan right now is to have roughly 30 minutes of work each day.

Each day, I will post 1-2 videos for students to watch along with a few practice problems to complete. If students are struggling understanding the material for the day, they should plan to join my Online Office Hours later that afternoon (see below for more specific info). Students should also reach out to me via email if they need help.

## Contacting Me

The best way to contact me is through my email address ([jonathan.gambrell@cobbk12.org](mailto:jonathan.gambrell@cobbk12.org)). I will do my best to respond to emails as quickly as possible. During the normal school hours, responses should be sooner than after school hours.

## Online Office Hours

Right now, I plan to be live online via a video conferencing platform for students to call in and ask questions. This will allow students to watch the videos and attempt to complete the assignments in the morning and then ask questions in the afternoon if they have them. I will post the link to the video call on the main page of my website. ([www.gambrellchemistry.com](http://www.gambrellchemistry.com))

AP Chemistry: 1:00-1:45pm

Honors Chemistry: 2:00-2:45pm

## Remind101

I have set up a Remind101 account for each of my classes. Students were told to sign up for it on Thursday 3/12/20. Instructions to sign up are below. This is where I will send out all new announcements when I have posted new info or any other important info.

AP Chemistry: Text @jgapchem to 81010

Honors Chemistry: Text @jghchem20 to 81010

## Important Notes

Right now, we are not sure when school will be back in session. Students should do their best to keep up with online assignments and learning the content. I will make sure we do not move so fast and that we move in a way that all students are able to keep pace.

For AP Chemistry students, we will proceed as best we can in learning content and preparing for the AP Exam. Right now the AP exam has not been postponed or canceled.
